

Harlem Center
FOR NURSING AND REHABILITATION
An Allure Facility

To Our Families & Friends,

We, at Harlem Center, truly understand what a difficult time this has been for everyone in our community. Often times, misinformation can add to the stress and anxiety already felt by so many of our family members. With that in mind, we want to provide you with a direct link to the DOH's most recent reporting of COVID positive deaths as well as COVID suspected deaths within New York State's nursing homes. While we do have COVID patients in our home, rest assured that the DOH and CDC infection control policies continue to be followed each and every day to keep our staff and residents safe.
