

Harlem Center
FOR NURSING AND REHABILITATION
An Allure Facility

November 16, 2021

To Our Families & Friends,

We hope this letter finds you safe and well. As we always strive to do, we want to keep you informed and updated of any and all-important events happening here at Harlem Center.

As of this writing, we have received new updated guidelines regarding visitation for all residents. Although visitation restrictions have been lifted, we are still required to adhere to the Infection Prevention and Control principles to ensure safety for all. Visitors are also expected to adhere to these same principles. **We encourage all visitors to be fully vaccinated (if not medically exempt) or provide COVID-19 test results 72 to 48 hours prior to your visit, in accordance with the NYSDOH.**

As always, please feel free to contact me directly or our concierge Jazmin Duran (ext. 1231) if you have any questions or concerns.

Sincerely,

Thara Cesar
Administrator
